

TRANSPORT YOURSELF ALTERNATIVELY

Driving a car is typically a person's most polluting daily activity. While driving may be necessary at times, replacing some of our weekly trips with alternative transportation methods can help us have a positive impact on our community.

.....

WALK OR BICYCLE: Choosing to walk or bicycle is a healthy alternative to driving that saves you money and helps reduce pollution.

USE PUBLIC TRANSPORTATION: The Mountain Line Transit System offers convenient and reliable transportation throughout Flagstaff seven days a week! It's a great way to save money and reduce your carbon footprint. Visit www.naipta.az.gov.

SKIP A CAR TRIP EACH WEEK: Choose one trip you make on a weekly basis; then decide how to get the task done without your car, whether it be by biking, taking public transportation, carpooling or eliminating an expendable trip.

PLAN VEHICLE TRIPS: Plan an efficient route to avoid excessive trips.
